#### **Management Responsibility**

David Mann is the Bolted Tank Manager at MMI Tank & Industrial Services. His responsibilities include new business development, working closely with bolted tank suppliers to further develop relationships, schedules, direction of bolted tank installation crews, enforcing company policies and procedures, managing risk, and managing quality throughout the project life-cycle.

#### **Experience**

David Mann joined MMI in 2022 with 32 years of Bolted Tank experience. Prior to joining MMI, David developed and managed manufacturer's representative organizations for 2 different bolted tank companies while in the position of Regional Sales Manager.

#### **Previous Project Experience includes:**

- Sold many large power projects around the country with EPC firms such as Bechtel, Kiewit, Black & Veatch, and Burns & McDonnell.
- Worked closely with manufacturer's representatives to further develop the bolted tank industry in both the liquid and dry markets.
- David has worked in every aspect of the bolted tank industry over the years including inside sales, running the paint line, the shipping department, bolted tank construction department and back to outside sales as a Regional Sales Manager for the last several years.
